

5-Gallon Water Datasheet

Amsuvis®
Plast

Overall height:

18.89 inches (480 mm)

Overall width:

10.69 inches (271.8 mm)

Bottle weight:

730 grams (1.6 pounds)

Material Specification

Base Material:

Polyethylene Terephthalate (PET)

Handle Material:

BPA-free PET

BPA / BPS Content:

Non-detectable (ND)

Recyclability:

100% recyclable bottle and handle

Mechanical & Durability Performance

Design Type:

Heavy-walled shoulder and base

Thermal Resistance:

Designed to withstand hot and cold temperature exposure

Logistics Durability:

Engineered for repeated truck-to-plant and plant-to-customer handling

Reuse Lifecycle:

Validated for 150+ delivery cycles

Flexible Stability:

The bottle's mass and geometry provide mechanical stability during filling, capping, conveying, and transport, closely replicating polycarbonate performance allowing an easy integration into any bottle fleet.
